

State Library of Iowa

SFY07 Annual Report - Use of Iowa Communications Network July 2006-June 2007

The State Library continues to rely heavily on the Iowa Communications Network (ICN) for video, data and voice services. The ICN is the backbone the State Library's Web sites, including <http://www.statelibraryofiowa.org/>, <http://www.healthinfoiowa.org/>, and <http://www.iowacenterforthebook.org/>. These Web sites provide Iowans access to a wide range of resources, including library catalogs, databases, census data, patent information, consumer health information, and information to stimulate public interest in books, reading, literacy and libraries.

Librarians use the Web sites for numerous reasons, including the statewide electronic interlibrary loan system. Many State Library services would not be available without the ICN. Iowans can access 2000 census demographic data and maps as well as current estimates of population, housing, economic, and government characteristics on the State Library's State Data Center Web site, <http://www.iowadatacenter.org/>. Thousands of data tables, demographic profiles, and maps are available to Iowans on the site.

Iowa Publications Online, <http://publications.iowa.gov/>, provides Internet access to over 4,465 State of Iowa documents that have been published electronically. A powerful search engine allows patrons to find documents by title, author, subject, keyword, or year. As fewer state publications are published in print, this will become a valuable archive of state documents for all Iowans. The State Library Web sites had 3,485,387 hits in FY07.

State Library Use of the ICN video room

The State Library logged 137 hours (2,613 billable hours) on the ICN for workshops, training and meetings. There were 2,163 participants in 58 sessions at 1,128 sites. State Library staff and those who participate in state-sponsored events continue to save tremendously in time and travel costs. Many Iowans, especially those in rural areas, would not be able to participate in these events if extended travel was required.

Cost savings for video room use

In addition to providing services and information to larger audiences, the State Library has realized cost savings from ICN use. The following assumptions and calculations were used in this report:

- If meetings and training sessions were not held over the ICN, all participants would travel to Des Moines as the originating site. Mileage is figured from each remote site to Des

Moines.

- At least one participant from each remote site would have traveled to Des Moines.
- Participant counts are based on registration, counts conducted during the sessions, or estimates.
- Distance calculations are based on shortest distance on a map from remote site to Des Moines.
- Productivity costs calculated for consultant travel to individual sites (the average hourly salary/ benefits [\$28.47/hour] × round trip mileage between sites ÷ driving speed of 55 mph).
- ICN cost for FY2007 was actual ICN charges based on rates afforded the E-rate discounts for the State Library.
- Room charge costs are derived from actual billings when possible.
- Savings = (Productivity + Lodging + Meals + Travel-In) - (ICN Cost + Room Charge).
- Travel-In [participants * distance * \$.34 * 2]
- Travel (Y/N) N means the session would not have been held if not on the ICN.

The attached spread sheet includes:

1. State Library-sponsored programs originating at the State Library.
2. State Library-sponsored programs originating in ICN rooms of other agencies.
3. Programs sponsored by other agencies and attended by State Library staff to save travel expenses, i.e., board meetings, committee meetings.

Based on the above assumptions, the State Library realized \$215,628 in savings in FY07 using the ICN. This includes productivity costs and assumes sessions would be held by having participants coming to Des Moines for the service. System charges from the ICN totaled \$11,275 and individual room charges totaled \$5,963. Total charges for ICN video use, room use and satellite costs in FY07 were \$17,417.

Specific Examples of ICN video room use by the State Library of Iowa

- The State Data Center (part of the State Library) and the U.S. Census Bureau sponsored four sessions in which representatives from city and county governments learned about helping the Census Bureau update addresses prior to the 2010 census. Approximately 320 attended the sessions. Contact: Beth Henning
- Public Library Management 1 and 2 courses, required for public librarian certification, were offered five times during the year. 131 students participated. Contact: Michele Leininger
- Library Trustee Training: Governance and Funding was attended by 180 and held at 45 sites. Contact: Sandy Dixon
- The Center for the Book, <http://www.iowacenterforthebook.org/>, used the ICN to offer an evening program designed to help library staff, trustees and community discussion leaders plan a discussion of the 2007 All Iowa Reads book selection. The 2007 title was *The Splendid Solution: Jonas Salk and the Conquest of Polio* by Jeffrey Kluger. There were 148 participants at 52 sites. The Center for the Book also used the ICN for planning sessions and

developing the Letters for Literature program. Contact: Annette Wetteland.

- Readers Advisory Training to teach library staff to successfully pair books with library customers. 50 public library staff attended at 38 sites. Contact: Michele Leininger
- Downlinks - ICN capabilities make it possible for the State Library to easily take advantage of satellite downlinks provided by the College of DuPage. With assistance from Bibliographical Center for Research, the State Library was able to offer all of the College of DuPage satellite downlink teleconferences: Best New Technologies: Keeping Up with the Storm; Next Gen Librarianship; Library Transformation: Making It Work; Best from the Web; Relevance of the Library in a Digital Age. A total of 277 participants attended the sessions. Contact: Michele Leininger

Several State Library staff served on boards, committees and conference planning teams that held sessions over the ICN, saving the State Library travel expenses and increasing staff productivity. Examples were Youth Services Advisory Committee, Teacher-Librarian Task Force, ATAC board, the IEC committee, in addition to other administrative and committee meetings.

Benefits to Iowans

Iowans value the opportunity to attend classes and meetings at local ICN sites. If not for the ICN, many librarians would be unable to pursue continuing education, develop professionally, or become involved in setting the course for the future of libraries.

Thanks to the ICN's recording capabilities, people unable to attend an event on a specific day can still "participate" days later, at their convenience. The State Library's recorded ICN workshops are the most sought after videos and DVDs in the State Library's collection.

Without the ICN, Iowans would not have access to the State Library's Web site. The Web site provided Iowans access to Job List, census information, consumer health information, grant resources, and a database of Iowa inventors and patent holders from 1843-1974. State workers, as well as all Iowans, can access commercial, online full-text references. E-mail reference is supported with the Web based "Ask a Librarian" service.

Benefits to State Library of Iowa

The ICN increases efficiency by cutting travel time and expenses. Using the ICN increases attendance and participation by the different geographic areas of the state. Technology is more easily incorporated into training sessions. Training is provided within critical time frames and guarantees information equity. Without the ICN, many training and workshops would not be possible or practical. Lastly, without the ICN, the State Library would not receive the input it needs to assess needs and develop programs to meet them.

State Library Use of ICN Data Service

ICN Internet services provide the telecommunications backbone for Iowa's electronic library information network (SILO) and for the State Library's integrated library system including the State Library's online catalog. During FY07, SILO continued to provide access to hundreds of online reference resources, including FirstSearch, EBSCOhost, and the Iowa Locator, which contains records for 15 million items owned by 703 Iowa libraries of all types. Libraries used the electronic interlibrary loan service to fill 106,734 requests for library materials. SILO Interlibrary Loan allows libraries to share materials with each other to meet the information needs of Iowans. The number of Iowans searching in electronic databases continued to increase. Iowans logged onto EBSCOhost 1,952,881 times and conducted 7,893,561 searches.

Because of the ICN, librarians across the state can communicate instantly with each other through electronic mailing lists maintained by State Library staff and moderated by SILO. In most cases, librarians use the mailing lists to track down hard-to-find materials needed by customers and to solve issues that occur in day-to-day activities.

Future

The State Library will continue to offer access to ICN video conferencing through the meeting rooms in the Ola Babcock Miller building. The rooms are available to all state agencies and to library-related groups.

In addition to data, voice and video services, the State Library will continue to rely on the ICN to support SILO and its numerous services. The ICN remains vital in helping the State Library fulfill its mission to provide statewide access to information for all Iowans.
